Goals/purpose brainstorm:

- promote diversity by educating people about certain topics that minorities find important educational and fun
- advisory group
- bring ideas of curriculum to make sure we are bringing in diverse perspectives (HMS) instructors are really the ones who set the tone for the diversity discussion
- attending a PWI, there are certain topics that aren't really discussed (microaggressions)
- not focus just on racial diversity but other topics as well
- some students don't identify with Honors when they consider their identities as a student, how can we motivate them to become involved?
- Radiolab series on intelligence
- Event idea: Panel discussion on intelligence as culturally defined, interactive

Next meeting: November?
